

The Working Group on Risk - CREAR, with the support of the IDS dpt, Institut des Actuaire, Labex MME-DII and the group BFA (SFdS), has the pleasure to invite you to the Seminar by:

Prof. Olga KLOPP

ESSEC Business School

October 6, 2017, 12:30pm – 1:30pm
EEE - ESSEC La Défense (CNIT) – Amphi 103

Big Data: New Challenges and Opportunities

In the last few years there was a growing enthusiasm for the notion of "Big Data". Technical advances of the past 40 years laid the foundations for managing and analyzing Big Data today. The new challenges and opportunities associated with Big Data necessitate rethinking many aspects of data management, data analysis systems, and data-driven decision making. In this talk we will overview some of these challenges and opportunities associated with Big Data.

Financial support from ESSEC Research Center and Labex MME-DII is gratefully acknowledged.

Prof. Olga KLOPP

ESSEC Business School (CREAR) & CREST

Olga Klopp is Associate Professor in Statistics at ESSEC Business School. She holds a Ph.D. in Mathematics & Applied Mathematics (National University of Mexico) and an Habilitation degree (HDR) in high-dimensional Statistics (Nanterre University, Paris X). Olga's research focus is in high-dimensional statistics, and especially, in matrix completion and network models. She is a member of the ESSEC risk research center CREAR and of CREST, as well as associated editor of *Bernoulli*.
